

REDUCE UNAUTHORISED COLOUR COPYING

CONTROL THE COST OF COLOUR SPEND IN YOUR BUSINESS WITH KYOCERA COLOUR CONTROL

Reducing and assigning costs to departments is becoming increasingly important. With KYOCERA Colour Control, organisations can regulate access to the colour copy features across their KYOCERA fleet, whilst not impacting black and white copying.

This allows organisations to allocate costs to departments or cost centres quickly and easily. Colour control is easy to deploy and manage, yet instantly cuts down on consumables costs whilst also enabling departmental cost attribution.

BUSINESS CHALLENGES

- > My consumable spend is getting out of control – **how can I reduce this spend quickly?**
- > I need to assign colour consumable costs to departments – **is there an easy way to do this?**
- > I need open access to black and white copying in our warehouses – **is there a way to do this without providing colour copy too?**

YOUR ADVANTAGES WITH COLOUR CONTROL

- > **Cost attribution** – access and cost control of colour features.
- > **Easy to use** – no pin for black and white copying, only for colour.
- > **Saves money** - saves on toner and copying costs

KYOCERA HyPAS™ TAILOR YOUR MFP TO YOUR BUSINESS

HyPAS™

HyPAS™ is KYOCERA's platform for developing custom MFP business applications. These can run embedded inside the device and extend the device functionality according to your needs. The MFP applications can connect to external server applications and integrate the MFP into your company workflow. With HyPAS™, KYOCERA meets your individual requirements and provides you with the right solutions for your business.

FEATURES & SPECIFICATIONS

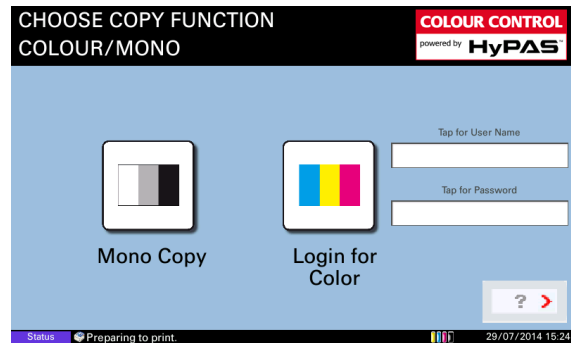

Lock down your KYOCERA device quickly and easily with Colour Control. Restricting access to colour copying is simple, whilst black and white copying is un-restricted to all users. Cutting cost immediately, and introducing departmental cost attribution.

Black & White: Un-restricted copying for all users with no impact on user experience.

Colour Copy: Restricted to login only, reducing costs and allowing departmental attribution.
